SPORTS & MARKETING ANALYTICS

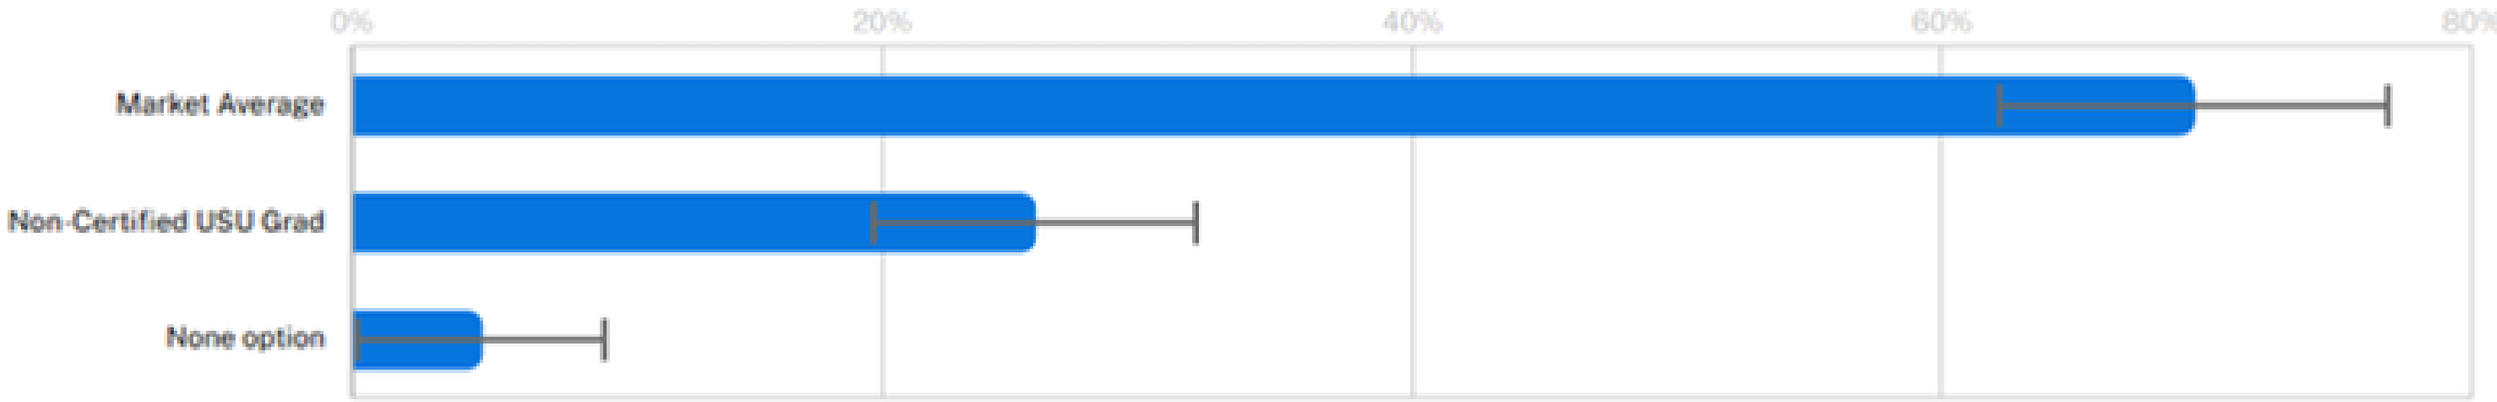

MARKETING ANALYTICS CLUB

OVERVIEW

- CLUB'S SECOND YEAR SINCE FORMATION
- USING ANALYTICS TO FOCUS ON THE FOUR P'S OF MARKETING: PRICE, PRODUCT, PROMOTION, PLACEMENT
- CLUB EVENTS ARE FOCUSED ON GIVING STUDENTS HANDS-ON EXPERIENCE IN TRYING DIFFERENT MARKETING ANALYTICS METHODS

Student Project- Hailey

Piano Teacher Market Analysis

Product	Market Average	Non-Certified U...
Degree	Yes Degree	Yes Degree
Years of Teaching	12+ years	4-7 years
Certification	No Certification	No Certification
Lesson Price	25	25
Proximity	Driving 10 minutes	Driving 10 minutes

The **Market Average** teacher will **attract 69.5%** of the market.

The **Non-Certified USU Grad** attracts **only 25.7%** of the market.

4.8% of the market will choose none of these teachers.

SPORTS ANALYTICS CLUB
OVERVIEW

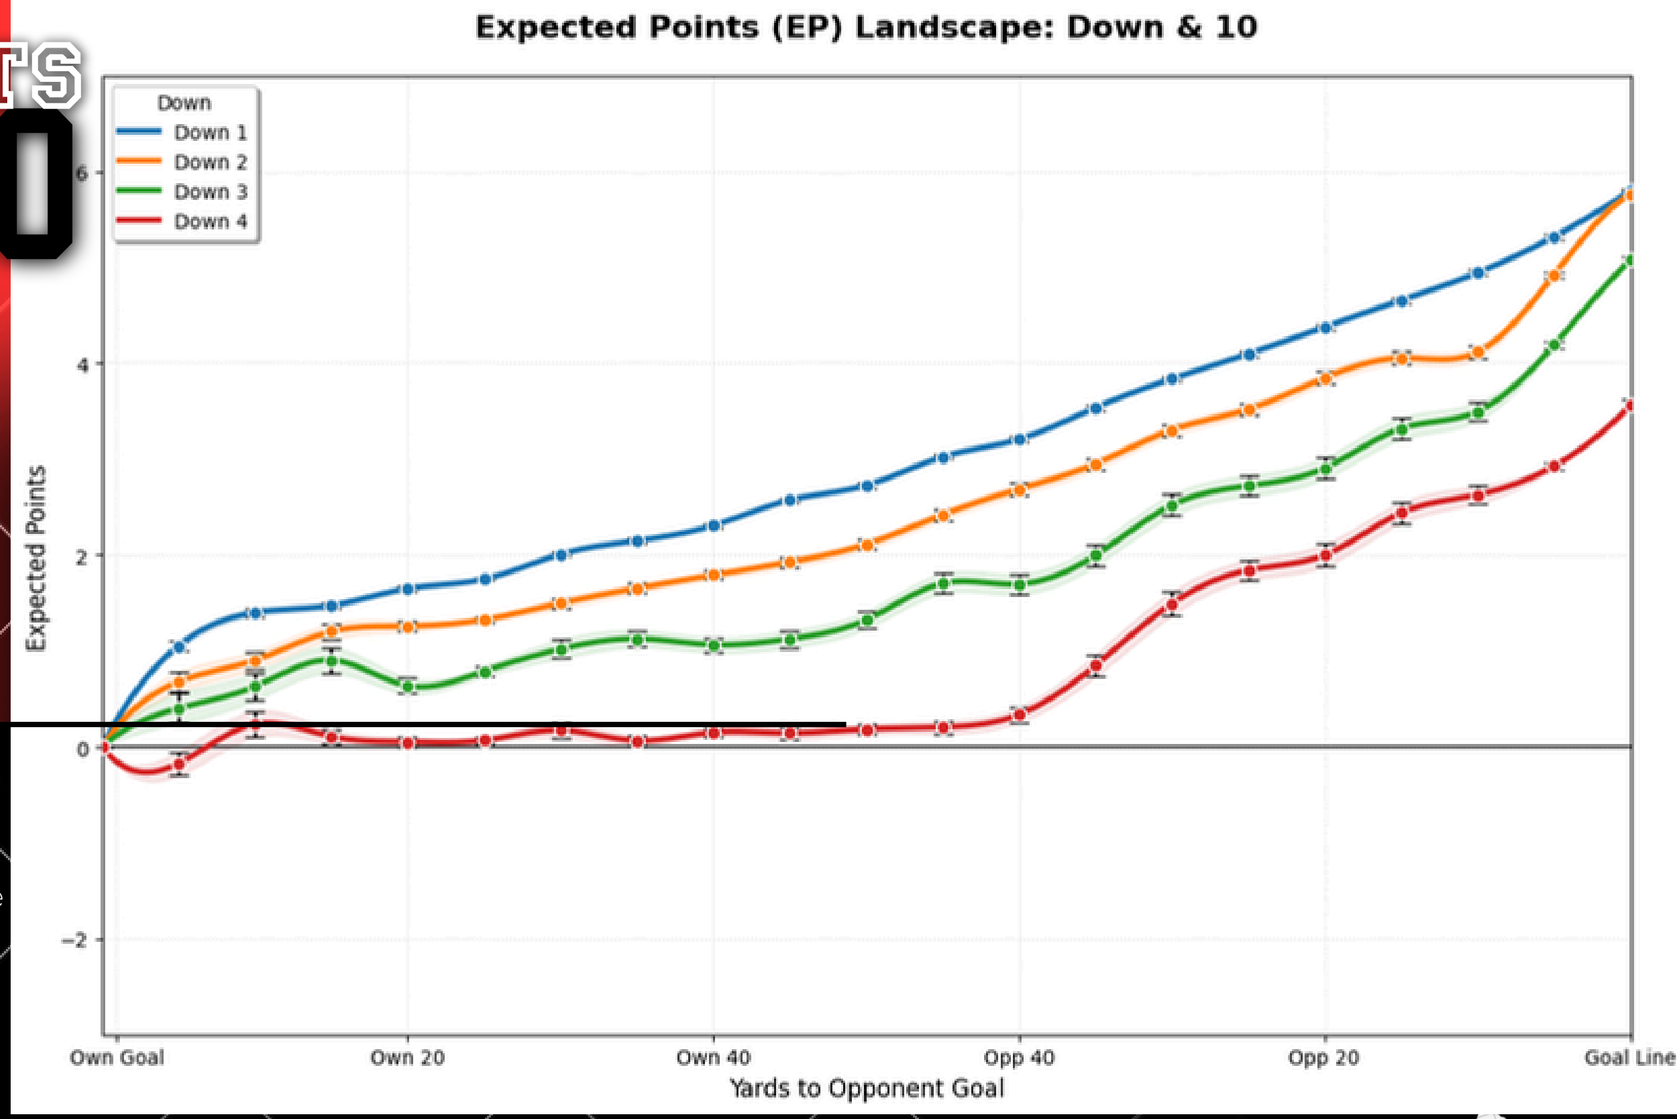

- CLUB WAS FORMED 3 YEARS AGO. EVENTS ALTERNATE BETWEEN KEYNOTE SPEAKERS AND HANDS-ON WORKSHOPS
- PREVIOUS SPORTS ANALYTICS PROJECTS WITHIN THE ASC: COVER ZERO ANALYTICS, USU FOOTBALL TEAM
- NEXT CLUB EVENTS: BRYSON BARNES VIRTUAL KEYNOTE SPEAKER & END OF YEAR BASH

PAST ASC PROJECTS

COVER ZERO

Cover Zero is a startup focused on providing analytics for high school football teams. I worked with other students to help create a proof of concept of the 5 factors of football below based on EPA (Expected Points Added) after a given play. The graph to the right shows the expected points based on any down and 10 yards to go after averaging over 700,000 plays of college football data.

EFFICIENCY

Success Rate: 50% of yards gained on 1st Down, 70% on 2nd Down, and 100% for either 3rd or 4th Down

EXPLOSIVENESS

Large gains made in one play. Usually measured in PPP (Points per Play)

FIELD POSITION

Measured by averaging starting field position of drives

FINISHING DRIVES

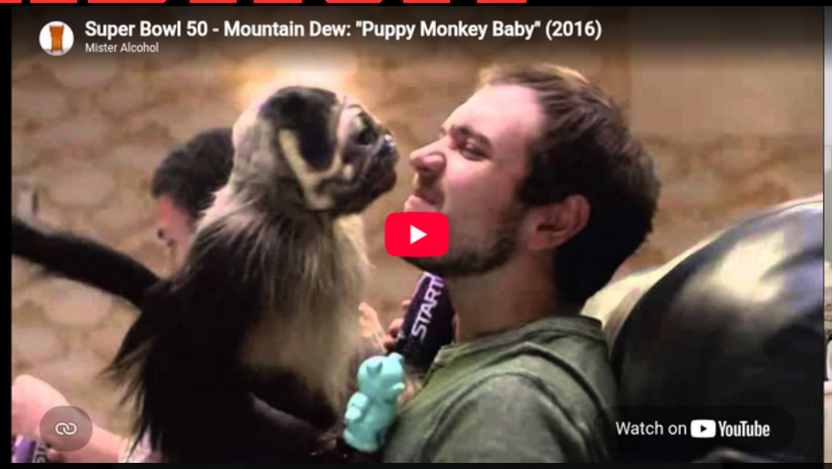

Determining average points per drive when within 40 yards of opponent's end zone

TURNOVERS

Possessing the ball is paramount. Measured in turnover margin
